

## Droneflyers.com DJI Pilot App Menu Hierarchy

### Notes:

Device, Remote and Phantom must be on and connected for all menus to display.

These are the main menus - other icons on the main Camera Screen link directly to some of the secondary menus.

This is public domain - feel free to fix it up, improve it, etc.

### Main Menu --> Secondary Menu

- :: Upper Right --> MC Settings --> distance limit
- :: Upper Right --> MC Settings --> beginner mode
- :: Upper Right --> MC Settings --> gain and expo tuning
- :: Upper Right --> MC Settings --> Advanced Settings --> Enable Multiple flight mode
- :: Upper Right --> MC Settings --> Advanced Settings --> Enable IOC
- :: Upper Right --> MC Settings --> Advanced Settings --> Reset IOC
- :: Upper Right --> MC Settings --> Advanced Settings --> Failsafe Mode
- :: Upper Right --> MC Settings --> Advanced Settings --> RC Signal Lost
- :: Upper Right --> RC Control Settings --> Gimbal Wheel Speed
- :: Upper Right --> RC Control Settings --> RC Calibration
- :: Upper Right --> RC Control Settings --> Stick Mode
- :: Upper Right --> RC Control Settings --> C1 and C2 Switch Settings
- :: Upper Right --> RC Control Settings --> Linking Remote Controllers
